To Whom It May Concern:

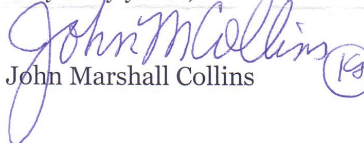

I have worked with Myles F. Corcoran on several occasions as a construction consultant and expert witness.

His work is thorough, professional, and of the highest quality. His clear and thorough analysis helps bring matters to resolution and helps me to be well prepared to address the issues. Myles has a very honest, straight-shooter approach that provides him with great credibility.

Myles is thoughtful, pleasant, and a pleasure to work with. He always has his eye on getting the job done well and done quickly.

My clients and I have been very satisfied with Myles and his company. I would most highly recommend him.

Very truly yours,

John Marshall Collins
