

Commercial - Exhibit B

We were hired by the General Contractor to be the Expert to defend against a law suit by the owner of a funeral hall and chapel, a service organization. Our report and testimony during experts meetings and mediation were so compelling that a settlement was reached. In the middle of these negotiations, the owner, impressed by MFC's knowledge and professionalism fired their own expert and hired us to design the fix and then manage the work as Owners' Representative. Their service organization is an ongoing client today.

Leak evidence that led us to investigative (destructive) testing to find the source.

Removing stucco to investigate waterproofing layers underneath to determine the source of the leaks.

MFC designed a cost-effective way to replace the windows that had leaked and repair the damage.
