

**ST. JOSEPH'S MONASTERY
of Poor Clares**

Dear Allison,

This note is a response to your request for testimonial relative to the work of Myles Corcoran. There is no doubt in my mind that Myles is more than qualified with regard to his knowledge and abilities in the world of construction disputes.

Our monastery had several construction errors and the whole process of resolving the multitude of problems and errors in the construction, which reflected on the contractor and several sub-contractors, would have been impossible and overwhelming were it not for the expert and total scope of knowledge that Myles brought to investigative aspects necessary to place us in a position to recover what was needed in order to move ahead with the necessary reconstruction. I had ABSOLUTE confidence in his knowledge and ability throughout this process of resolution. We were, in fact, blessed to have had Myles F. Corcoran working with us.

It would take pages to describe the process. Suffice to say that all has been resolved and we are now experiencing the final work necessary in order to complete the reconstruction, which has taken four years to complete. This will give you a sense of how large the scope of work was!

Sincerely yours,

Sister Krista
