Allison Livingston
Myles F. Corcoran Construction Consulting, Inc.
200 Seventh Avenue, Suite 230
Santa Cruz, CA 95062

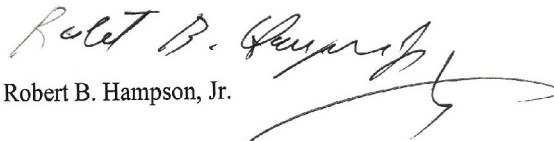

Dear Ms. Livingston:

I am an insurance adjuster/investigator with 38 years of insurance carrier and independent experience ranging from field adjuster to managerial level. I have known Myles Corcoran since the inception of Myles F. Corcoran Construction Consulting, Inc. and have used his services on numerous occasions. I have found the level of his construction expertise and the caliber of his work to be excellent in all respects.

Most of the cases I investigate are high exposure cases with seven and eight figure damage potential involving construction defect or third party liability cases involving death, serious bodily injury and/or property damages. On many occasions I have used reports or testimony from Myles F. Corcoran Construction Consulting, Inc. at mediation or settlement conference to clarify issues of construction costs, adequacy, or accident causation and settled the case and, thus, avoided discovery and trial expense.

I would recommend Myles F. Corcoran Construction Consulting, Inc. without reservation for any construction consulting case. Please feel free to contact me if you need additional information.

Sincerely yours,

Robert B. Hampson, Jr.
