RE: Client Testimonial

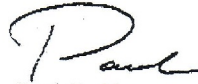

Dear Allison:

Per your request, below I have provided a short note describing my observations of Myles. Please don't let his ego get too inflated or I will have to deny ever having said these kind words.

I have worked with Myles on numerous occasions over the past 12 years on a variety of different construction related disputes. I have always found Myles to be extremely well versed as to construction requirements/standards and he works quite hard to truly determine the underlying cause of a particular problem. One of Myles best attributes is his ability to work closely with all parties to formulate a reasonable repair plan in relation to difficult claims which obviously facilitates overall case resolution.

Very truly yours,
